

## What is "World Wide Woo?"

### Resumé

### Personal information on Mason

### A List of Mason's Favorite Links

---

#### **World Wide Woo**

World Wide Woo is the name for my consulting business. Consulting services include:

- training people about computer graphics and computer graphics programming, specializing in the OpenGL graphics library
- market analysis of the computer graphics industry
- development of technical training courses
- technical writing of all kinds

I am independent of any company and can provide expertise, based upon 11 years in the computer graphics industry.

I have several courses which I can offer. All courses are taught at the customer's site.

For the computer graphics application programmer:

- **Introduction to Graphics Programming with OpenGL** (2 days)  
This lecture-only course instructs programmers how to write OpenGL code to render interactive, colored, shaded and wireframe, lit and unlit, 2-D and 3-D graphics. Common pitfalls in OpenGL programming are pointed out. Paper and pencil exercises are done. A customer does not have to have a machine which runs OpenGL applications, but a single machine for demonstrations is helpful. No previous knowledge of graphics is assumed, although some knowledge of graphics is helpful. Knowledge of programming in C is highly recommended.
- **Hands On Graphics Programming with OpenGL** (4 or 5 days)  
This hands-on course teaches programmers to write OpenGL code to render interactive, colored, shaded and wireframe, lit and unlit, 2-D and 3-D graphics. Customers must supply machines capable of compiling and running OpenGL applications, and the programming exercises will be done on those machines. No previous knowledge of graphics is assumed, although some knowledge is helpful. Knowledge of programming in C is mandatory.

## World Wide Woo (woo.com) is closing down

World Wide Woo, the sole proprietorship of Mason Woo, is ceasing operations, as of July 31, 2002.

I (Mason) have been accepted to study for a year at the London School of Economics. So I have decided to shut down woo.com during October, 2002, but I will continue to control the woo.com domain. I have NO interest in selling the domain at this time.

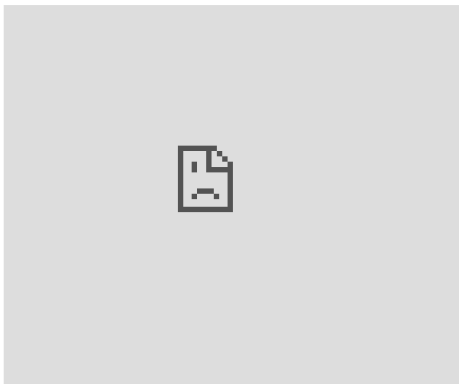

To send me email, please use the forwarding address masonwoo@alumni.brown.edu  
This email address currently forwards your email to a temporary email address for me. In the fall, it will forward your mail to my address at LSE.

Thank you for your interest.

## MASON WOO

**This Domain is NOT for sale.**

**Really. I'm not interested in selling this domain.**

Please don't send me email and ask me what price I want.

### About Mason

This is the personal web site for Mason Woo. I am a computer science professional with a background in finance. I was a full-time employee at Apple, Silicon Graphics, Blue Martini Software, and PeakStream, and I have been an independent consultant for several companies.

I have degrees from both [Brown University](#) and the [London School of Economics and Political Science](#). An introductory paper on hedge funds I co-wrote with Professor Gregory Connor at LSE can be [found here](#).

I was once secretary of the OpenGL Architecture Review Board and was an original co-author of the OpenGL Programming Guide, which is also known as the "Red Book."

My twitter handle is WooIsMe. I also can be found on Facebook and LinkedIn.

# EXCITING CHANGES COMING SOON
